DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Specification

3. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
4. The use of the trademarks Manugel DMB (page 6, line 27), Tween 20 (page 7, line 20), etc. have been noted in this application. They should be capitalized wherever they appear and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Objections

5. Claims 5-9 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

6. Claim 4 is objected to because of the following informalities: The Markush phrase "amphoteric and zwitterionic surfactants and mixtures thereof" in instant claim 4 should be amended to recite "amphoteric, zwitterionic surfactants and mixtures thereof" to constitute a proper Markush listing. **See MPEP 2173.05(h)**. Appropriate correction is required.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1751

8. Claims 1-4 and 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Michael, U.S. Patent No. 4,961,871.

Michael, U.S. Patent No. 4,961,871, discloses an abrasive cleanser with an encapsulated perfume comprising 0.1-10% by weight of a surfactant, such as anionic surfactants (see col. 6, lines 12-30 & col. 9, lines 25-28), 10-95% by weight of an abrasive (see col. 9, lines 29-30), 0-80% by weight of a detergency builder (see col. 6, lines 54-56 & col. 9, lines 31-32), 0.02-5% by weight of a perfume (see col. 2, lines 15-17 & col. 10, lines 1-4), and a water insoluble microcapsule comprising a hydrolyzed, crosslinked, polyanion gum, such as alginates, carrageenan, and carboxymethyl cellulose (see col. 4, lines 47-58, & col. 5, lines 31-32, and col. 10, lines 4-31), per the requirements of instant claims 1-4 and 10-13. Therefore, instant claims 1-4 and 10-13 are anticipated by Michael, U.S. Patent No. 4,961,871.
